

KLOVE is the only radio station I listen to in my community. If KLOVE is interrupted by LPFM broadcasting I would be very displeased as I do support KLOVE financially and love the station for it's engouragement and positive listening for my children. It would be a shame to replace something positive, with a negative message such as a lot of the country music stations or today's rock/pop channels. Have you really listened to whats on the radio today. That is why I think it be a shame for any interruption of KLOVE.
